<https://github.com/adithyajs22/> | <http://www.linkedin.com/in/adithya-js-180646290/>

Skill

Languages: C, C++, Python, JavaScript, PHP, SQL

Technologies & Tools: React.js, Axios, MySQL, XAMPP, phpMyAdmin, Git, GitHub, Postman, Web Speech API, TMDB API, Vercel, Canva, RESTful APIs, Jira.

Experience & Leadership

IEEE - Institute of Electrical and Electronics Engineers

Women in Engineering (WIE), IEEE RAS | 2024-25

- Organized workshops, outreach events, and technical sessions.
- Managed registrations, event promotions, and feedback collection for 50+ participants.

Content team | 2024-25

- Created promotional content and event descriptions for 10+ events.
- Coordinated with design teams to ensure branding consistency.

Report Team | 2025

- Prepared official post-event reports submitted to the IEEE Kerala Section

Education

College of Engineering Perumon

B.Tech. in Computer Science and Engineering | 2022-26

CGPA: 7.85

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Web Programming, Artificial Intelligence, Information Retrieval, Computer Graphics and Image Processing, Computer Organisation and its Architecture, Compiler Design

Project Work

- **EchoSavvy – Inclusive E-Commerce Platform:** <https://github.com/adithyajs22/echosavvy-final>
Built an inclusive e-commerce platform tailored for visually impaired users.
 - Implemented voice navigation, speech recognition, and TTS-based interactions.
 - Designed a screen-reader-friendly UI with ARIA labels, high-contrast elements.
 - Integrated Node.js + Express.js backend.
 - Enabled hands-free shopping through real-time spoken feedback and accessible workflows.
- **Gym Management System – Full-Stack Membership Platform:** <https://github.com/adithyajs22/gymmanagement>
Developed a complete web solution for managing memberships, payments, attendance, and plans.
 - Designed normalized SQL schema and secure CRUD functionality.
 - Built admin dashboards for tracking members, trainers, classes, and revenue.
 - Simplified gym operations with centralized data and automated record handling.
- **GitHub Profile Checker – API-Driven React Dashboard:** <https://github-profile-checker-black.vercel.app/>
A real-time developer analytics tool displaying GitHub activity and user stats.
 - Consumed the GitHub REST API to retrieve profile metadata, repositories, followers.
 - Built modular React components with clean UI and loading/error states.
- **Netflix Clone – Dynamic Streaming Interface:** <https://netflix-clone-adithya-jss-projects.vercel.app/>
A responsive Netflix UI replica with fully dynamic content rendering.

- Integrated TMDB API to fetch trending, top-rated, originals, and genre-specific movies.
- Implemented banner sections, horizontal scrolling lists, and dynamic category rendering.
- Added YouTube trailer support using TMDB video endpoints.

Awards and Certificates

- University 2nd Rank – **IEEEExtreme 17.0 (Team Solarius)**
- Hosted reverse coding competition at college tech fest
- Volunteered for UI/UX workshop under IEEE Informatyka 3.0
- Certificates for mentoring & coordinating IEEE SB CE Perumon events
- Volunteered Live 2.0, a techno-cultural event under IEEE SB CE Perumon
